Add Transactions to Project

Done *550*

You can add transactions to the project from a transaction list.

Step 1: Choose a source of transactions

All Transactions from a known CICS Region

Step 2: Choose a CICS region

C001 at "SVL H50 MVS BOX"

(Show region details)

Step 3: Add transactions to the project

Add	Transaction	Actions	Initial Pgm	Library	Member	Documentation
<< Add	ACTD		ACTDVR			
<< Add	ACT1	view source	V2ACTDB	PKGD.DMH.V6R1M2.SAMPSRC	V2ACTDB	view doc
<< Add	CST1	view source	V2CSTDB	PKGD.DMH.V6R1M2.SAMPSRC	V2CSTDB	view doc
<< Add	EBMR		DFHMIRS

Configuring Transaction ACT1 for Input

Done 770 720

Program variables currently selected for input

785 730 765 745

Configure	Data Element	Action	Type	Byte Length
785	01 DFHCOMMAREA	view in source	GRP	16

Candidate program variables for input 780 790

1. Most likely candidate: DFHCOMMAREA 795

(You have already selected DFHCOMMAREA.)

2. Likely candidates: referenced redefines of DFHCOMMAREA 795

(There are no top level data elements which both redefine DFHCOMMAREA and are also referenced in the initial program.)

3. Candidates: referenced top level data elements

Configure	Data Element	Action	Type	Byte Length
Selected	01 HV-ACCTNO	view in source	NUMB	4
Selected	01 HV-BALANCE	view in source	NUMB	5
